

LIFE AS IT REALLY IS

Hancock Department

HANCOCK WATER IS EXCELLENT

Health Officer Reports City Water Pure—Other Business

The most important matter at the regular semi-monthly meeting of the city council last evening was the report of City Health Officer Dr. Power, who stated that the water used by the residents of Hancock is pure and that no better can be obtained. He pointed to the general good health of the city to help bear out his statement.

Chief Engineer Trammell of the pumping station reported that a great quantity of water was used during the past month, 25,588,817 gallons being pumped from station No. 1 and 5,431,617 gallons from station No. 2. It required only 121 tons of coal to pump this water for the initial month of the present year and at the beginning of the new year 834 tons were on hand.

The Friendly Suit.
The bill of Attorney Frank C. Condon for \$30 was allowed. This claim arose from the friendly suit which was brought against the city to enable it to dispose of its small accounts. Attorney Condon was the plaintiff in the suit and he presented the above charges for his services.

A resolution authorizing the issuing of bonds amounting to \$15,000, this being the amount judgment was taken for in the friendly suit, was presented by City Attorney Lawton. The council acted favorably on the resolution.

Licensing Milk Dealers.

Some time ago City Health Officer Dr. Power presented a plan to the city fathers for licensing the local milk dealers. The plan as presented by Dr. Power was to appoint an official to inspect cattle, barns and milk sold by local dealers, requiring the dealers to live up to laws of cleanliness. A long and voluminous report was read by the health officer, presenting resolutions for an ordinance to cover this matter. It was decided to refer the resolutions to the health committee.

The salary of City Engineer MacDonell for the month of January, amounting to \$72, was allowed. The committee in charge of the purchase of 200 feet of additional fire hose reported that the hose had been purchased.

HOW "TIZ" GLADDENS TIRED, ACHING FEET

"TIZ" FIXED MY SORE, SWOLLEN, SWEATY, CALLOUSED FEET AND CORNS.

Ah! what relief. No more tired feet, no more burning feet, no more swollen, hot, smelly feet. No more pain in corns, calluses or bunions. No matter what ails your feet or what under the sun you've tried without getting relief, just use "TIZ".

"TIZ" is the only remedy that draws out all the poisonous excretions which puff up the feet. "TIZ" is magical. "TIZ" is grand. "TIZ" will cure your foot troubles so you'll never limp or draw up your face in pain. Your shoes won't seem tight and your feet will never hurt or get sore, swollen or tired. Think of it, no more foot misery, no more burning corns, calluses or bunions.

Get a 25-cent box at any drug store or department store, and get instant relief. Get a whole year's foot relief for only 25 cents. Think of it!—Advertisement.

The Delinquent Taxes.

City Treasurer Rouleau reported that the delinquent personal taxes, which he was authorized to collect some time ago, have been "on ice" in gradually and the list of delinquents is now very small compared to what it was formerly. The remaining delinquent taxpayers will be given until the middle of the present month to settle.

J. C. Donahue presented a claim for \$106 as expenses incurred several months ago when he secured a mandamus compelling W. W. Stockley, at that time city general manager, to turn on the water at the home of Sydney Donahue. Donahue refused to allow the general manager to inspect the property owned by himself, and on his refusal the water in the home was turned off. Mr. Donahue does not ask for damages, but wishes to be reimbursed for the expense he incurred in hiring an attorney to work on the case. The matter was referred to the committee on public works.

Contrary to expectations, the primary elections were not discussed at this session, but will be acted on at the next meeting, March 4, will be the date on which the primary elections will be held.

PANAMA CANAL PICTURES EXPECTED TO BE GOOD

INTEREST IS SHOWN IN HOWE MOVIES WHICH WILL BE HERE FEB. 9 AND 10.

Much interest is being shown by local people in the Lyman H. Howe moving pictures of the Panama canal, which are to be exhibited in the Kerredge theater in this city next Monday and Tuesday evenings, Feb. 9 and 10. Manager Kerredge has received several statements from managers of other theaters who have witnessed the films and all have agreed that the pictures show thoroughly the process of digging the "big ditch" and the construction work done on the canal.

"If a man can write a better book, preach a better sermon or make a better mouse-trap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door." This was the quaint way in which Emerson expressed the fact many years ago that the public can be depended upon to discriminate between what is ordinary and what is extraordinary. If he was alive today he would undoubtedly revise this statement, especially if he saw Lyman H. Howe's reproduction of the Panama Canal, so that in its modern form it would read, "If a man reproduce a better moving picture than his neighbor, the world will make a beaten path to his door." For it is just because Mr. Howe has been presenting the "better moving pictures" for so many years that nearly one million patrons "make a beaten path" twice each season to see his exhibition, all of which simply proves that the public is today just as discriminating as it was in Emerson's day. This is demonstrated still more forcibly by the immense patronage accorded Mr. Howe's new program with its remarkable reproduction showing the construction of the Panama Canal.

YOUNG LADY-PASSES.

Miss Florence Chappell Succumbs To Lingering Illness.

Miss Florence Chappell, aged 22, a resident of Houghton for her entire life, passed away at St. Joseph's hospital last evening, death being due to Bright's disease. The young lady was well known here and her death is deeply regretted.

The deceased, accompanied by her mother, left Houghton last fall for Detroit where they intended visiting for the winter. They returned recently owing to the sickness of Miss Chappell and she was immediately taken to the Hancock hospital.

The deceased is survived by her mother, Mrs. A. C. Chappell of West Houghton, four brothers and two sisters: Johnson of Spokane, Wash., Richard, Bert and Russell of Houghton and Mrs. Silas Evans and Pearl of Houghton. Her brother, Johnson of Spokane, is expected to arrive in Houghton Saturday evening to attend the funeral. The services will be held from the First Congregational church of Hancock of which the deceased was an active member.

DECISION IN CASE WHICH INVOLVED MASON "SUICIDE"

JOHN O. MAXEY OF L'ANSE IS ORDERED TO PAY \$9,000; IS AWARDED \$4,205.

Concerning a case involving the "suicide" of former Prosecuting Attorney W. L. Mason of L'Anse, the Detroit Journal says:

Judge Murphy gave his decision Tuesday in the matter of a parcel of land worth \$10,000 which was stolen from Samuel L. Smith by his attorney, William L. Mason, who afterwards skipped out, leaving part of his clothing in an upturned canoe to give the impression he had been drowned.

The land in question is in the village of L'Anse, Baraga county. Mason had succeeded his father as representative of Smith, and was highly regarded. John O. Maxey had in the winter of 1910-11 obtained title to several thousand acres of timber land in the vicinity, and had organized the L'Anse Bay Lumber Co. Mason volunteered to get Smith to donate a site for a sawmill. He came to Detroit and got Smith to sign a conditional deed whereby the land was to be handed over to the company on payment of \$10,000. The land was deeded but Smith knew nothing about it until quite recently. The company was not a success and it sold to Chicago men.

The property was to be sold at cost and in the inventory appeared the mill site for \$9,000, although it cost the company nothing. It was explained that Maxey had received the consent of the directors to do this to recompense him for his services and expenses in conducting the negotiations and to cover some unsecured notes of the company. Judge Murphy found that Mason had grossly misrepresented things, and was not favorably impressed with Maxey's testimony. The latter is president of the Baraga bank.

The court found that his legitimate expenses were \$4,205, and \$9,000. He ordered that Maxey return \$9,000 to Smith in payment for the land.

NOT DUE TO MATCH.

Martin Wicklem Not Smoking When Killed by Explosion.

Hancock authorities have investigated the cause of the explosion which killed Martin Wicklem, in addition to inhaling escaping gases, last Tuesday evening when he entered the Val Blais brewery plant to investigate the cause of gas issuing from the building, and have finally come to the conclusion that the explosion was not caused by the lighting of a match as was first believed. He carried a lantern with him and it is believed this is what caused the explosion.

A statement was first issued that the explosion might have been caused by the unfortunate man lighting a match, but as no tobacco, matches or pipe was found in his pocket this theory is not now held.

The coroner's jury will meet this evening to determine the cause of the death of Mr. Wicklem. Coroner Funk of Hancock will be in charge of the jury consisting of Edward Miller, Jerry Sullivan, Herman Zacher, Edward Schuler, David Case and Michael Holland.

No arrangements have been made for burial as yet, the remains still lying at the O'Neill morgue.

JANUARY MORTUARY RECORD.

City Clerk Hoffenbacher's report of births and deaths for January shows that the population for the initial month of the year is increasing. Twenty-six births and fourteen deaths were reported. The report of the city health officer shows four cases of contagious diseases in the city during the month.

GIRLS! HAVE BEAUTIFUL, CHARMING HAIR AND NO DANDRUFF—25 CENT DANDERINE

TRY THIS! DOUBLES BEAUTY OF YOUR HAIR AND STOPS IT FALLING OUT.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's when you use a "Danderine hair cleanser." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

LOCAL FIREMEN TRIUMPH.

Defeat Rival Houghton Fire Fighters in Bowling Last Night.

The faces of the firemen of the Hancock department were wreathed in smiles this morning as they journeyed the streets of the city. The reason for the pleasant countenance was that they defeated the Houghton fire-fighters in three consecutive bowling games on the Mitchell alleys last evening. Unless another match is arranged the local department has the championship clinched as they have won two of the three matches to date. The scores were as follows:

Houghton.		
Chief Voetach	114	93
Eggleston	109	126
Krause	91	163
Meyers	108	105
Daley	63	65

Total	490	558

HANCOCK BREVITIES.

David Headman of Dodgeville was

arraigned before Justice Eichkorn last evening, charged with handling firearms in a promiscuous manner. He pleaded guilty and paid a small fine and the costs.

Justice Eichkorn was a very busy official last evening. Robert W. Donovan, an employee of the Calumet & Hecla Mining Co., and Miss Margaret Grigson of Quincy, came to the justice with a marriage certificate. He performed the ceremony in his office.

Mrs. Lorenzo Bree has resigned as organist at the First M. E. church of this city. She will be succeeded in this capacity by Mrs. Donald MacDonald.

Professor William D. Henderson lectured in the assembly room of the high school last evening. He was heard by a large crowd and pleased exceedingly.

Charles Mathews, representative of the Northern Michigan Building & Loan association in the Gogebic district is here for a short visit.

The examination of Frederick Parry charged with grand larceny, was adjourned.

TELEGRAPHIC ODDITIES.

Too Darned Happy.

Jersey City, N. J.—Five minutes after his marriage, John Sankusky was locked up in city prison as his tearful bride and the wedding party waited outside. John had celebrated by shooting up his cab.

Look It Up.

Hartford, Conn.—Touched by the reading of the Forty-first Psalm, Louis Gaucher walked from the Salvation Army chapel, and gave himself up to the police, saying he was wanted for four robberies in Marlboro, Mass.

Fleet of Foot.

New York—Chasing the motor car of two young men, whom he charges called his wife "dearie, cutie and sweetness," Charles T. Davis, rich manufacturer, overtook them and hauled the pair to Coney Island police station.

Did It Scream?

New York—A bronze eagle weighing half a ton and worth \$1,000 was stolen from a monument in Fort Greene park and sold to a junkman for \$24.

RECKLESS RAILROADING.

They Kicked on the Speed and Baggage Smashing in 1846.

A correspondent, Professor Edward L. Morse of Salem, sends the following extract from a letter written by Louis Agassiz to his mother. The letter is dated Boston, December, 1846:

"Leaving Boston the 16th of October, I went by railroad to New Haven, passing through Springfield. The rapidity of the locomotion is frightful to those who are unused to it, but you adapt yourself to the speed and soon become, like all the rest of the world, impatient of the slightest delay. I well understand that an antipathy for this mode of travel is possible. There is something infernal in the irresistible power of steam, carrying such heavy masses along with the swiftness of lightning.

"The habits growing out of continued contact with railroads and the influence they exert on a portion of the community are far from agreeable until one is familiar with them. You would cry out in dismay did you see your baggage flung pell mell like logs of wood—trunks, chests, traveling bags, hat boxes—all in the same mill, and if here and there something goes to pieces no one is astonished. Never mind! We go fast—we gain time. That is the essential thing."

And this was on the Boston and Albany! And there was baggage smashing in 1846!—Boston Herald.

TIME TO CURTAIL STUDY.

Check Brain Work When the Child is Growing Rapidly.

As soon as a child begins to grow rapidly all intellectual exertion should be checked. Such is the theory which Dr. C. Mercier, the famous English authority on children, expresses in an article in the London Lancet. Especially when there is any family tendency to nervous or mental disorder, rapidly growing children should be withdrawn from school altogether until the period of rapid growth is over.

Mercier does not think that intellectual work at high pressure is harmful to either boys or girls as long as food, sleep and bodily exercise are sufficient, but he is sure that pressure of intellectual work in those who are growing rapidly should never be permitted, and if growth be proceeding very rapidly all intellectual work should be put aside.

Dr. Mercier insists that it is scarcely possible to give growing children too much to eat, and it should always be borne in mind that the carbohydrates—starch, sugar and fat—are primarily fuel that is burned up in producing muscular movement and that the formation of tissue. Consequently it is a mistake to restrict the meat ration of children.

HEAD STUFFED? GOT A COLD? TRY PAPE'S

"Pape's Cold Compound" relieves worst cold or the gripe in few hours—No quinine used.

Take "Pape's Cold Compound" every two hours until you have taken three doses, then all gripe misery goes and your cold will be broken. It promptly opens your clogged-up nostrils and the air passages of the head, stops mucus discharge or nose running, relieves the headache, dullness, soreness and stiffness.

Don't stuff up! Quit blowing and sneezing. Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.—Advertisement.

The Calumet News

Advertisement.

Here is one of the giant locks of the Panama Canal, the building of which has made possible another remarkable Lyman H. Howe reproduction.

Note the size of the enormous openings through which the water is carried from one level to another.

The figure of the man standing in the immense culvert, shown in the lower illustration, is that of a photographer who has been "on the job" since Uncle Sam began his mighty task of joining the Atlantic and Pacific at Panama.

Lyman H. Howe promises to the average American a surprising realization of the size of the canal building operations.

The spectator views the making of the canal from the points most favorably chosen by the artist-camera-man. By the reproduction of these scenes, one is put into intimate touch with each phase of an industrial struggle that has amazed the world.

The human interest side of the canal operations is also vividly depicted. The tropic sun collects its toll of strength creating a mixture of fun and tragedy. Giant explosions in the "Culebra cut" add to the general series of thrills. This Panama reproduction of Mr. Howe's which will be seen at the Calumet theater Saturday, matinee and night, and Sunday night.
